

# **SLATE Application**

**Name:** K.Vikram

**College:** RGU IIIT BASAR

**Topic:** Work Report

- ➔ Learnt various android concepts, to name a few – activities, fragments, services etc through Android API Guides, videos, and books.
- ➔ Designed and developed the UI for application using fragments.
- ➔ Worked on – generating the pdf file as output of the application from the images that are drawn. Implemented it using the Itext library, which is a open source library.
- ➔ Working on - Trying to implement save option as a Background Service rather than making it in UI thread and improving the UI of the application.
- ➔ Enhancing my android knowledge through learning various android concepts.
